

LENNOX

connected

The icomfort Wi-Fi[®] thermostat connects you to ultimate possibilities.

Save energy **from anywhere**, easily.

A touch connects you to savings and comfort

The icomfort Wi-Fi® thermostat gives you total remote comfort control and that means you can easily manage your home's temperature and energy efficiency—from anywhere. For added ease and convenience, the icomfort Wi-Fi thermostat includes features like One-Touch Away Mode, which allows you to save energy when no one's home. The thermostat also keeps you updated on the weather, so you can be prepared for any cold snap or heat wave that comes your way. All with a simple touch or a click.

So much more than a thermostat. And far less complicated.

Lennox' most innovative programmable thermostat is also the easiest to use. The intuitive touchscreen makes temperature adjustment as simple as a single finger tap.

Set the temp from the sofa? There's an app for that!

Thanks to an app designed exclusively for the icomfort Wi-Fi, there's more than one way to set your thermostat. When connected to your home's wireless network, it allows you to change the temperature using your smartphone, tablet or laptop. So, you can make programming adjustments away from home.

Lennox innovation, at your command.

Heating and cooling can account for up to **40%* of a home's energy costs**. Considering a monthly utility bill can be as high as a house payment, this is one expense you may not be feeling too good about.

The icomfort Wi-Fi thermostat offers a comfortable solution for saving energy and money. It goes degrees beyond what's possible with a standard thermostat.

Australian Household Energy Consumption

icomfort Wi-Fi®

Lennox® innovation never felt so good.
Or so convenient.

So simple. So smart. So comfortable.®

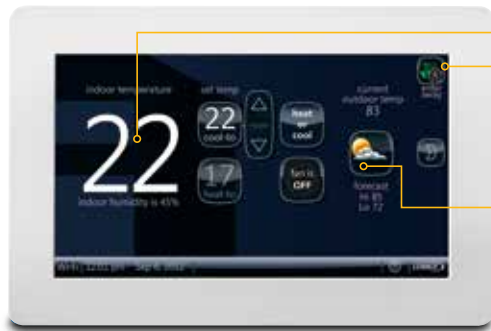

The center of everything.

When you set out to build a revolutionary thermostat, you have to start with smart ideas, and the icomfort Wi-Fi® is as smart as they come. When paired with Lennox® equipment, it effortlessly coordinates communication between every component of the system, optimising energy use while maintaining your temperature with an accuracy of .5 degree. So you enjoy the highest level of comfort Lennox has to offer.

Complete comfort never looked so good.

By adding a custom skin and matching screensaver to your icomfort Wi-Fi, you can coordinate it with the décor in any room. Available in any colour, pattern or design. You can also upload your own artwork or photo.

Convenience

Touchscreen Operation: The bright, clear screen is easy to read in any light, and easy to operate with just one finger.

One-Touch Away Mode: One touch or remote click will put your system into One-Touch Away Mode, reducing system use and energy consumption when no one is home.

Weather Data: The icomfort Wi-Fi can display live weather alerts and a five-day forecast, so you're always prepared for what's happening outside.

Alerts and Reminders: Your dealer can send alerts and emails if the system needs service or maintenance.

Remote Access: Once connected to the Cloud through your wireless network, your icomfort Wi-Fi can be adjusted from anywhere in the world via your smartphone, tablet, laptop or other web-enabled device.

Innovation

Smart Energy Use:

Seasonal schedules save energy all year long, while One-Touch Away Mode helps your system use less energy when no one is home.

Comfort

Perfect Air:

The icomfort Wi-Fi works with your Lennox® system to carefully control both temperature and humidity, filling your home with perfectly comfortable air.

Peace of Mind:

Like all Lennox equipment, the icomfort Wi-Fi is built to deliver more, and built to last. So you'll enjoy reliable comfort season after season.

App-Enabled:

Free to download for Apple and Android devices, the icomfort App is like a touchscreen window into your home comfort. Whether you're on the road or on the couch, simply start the app to check and change your temperature with only a finger.

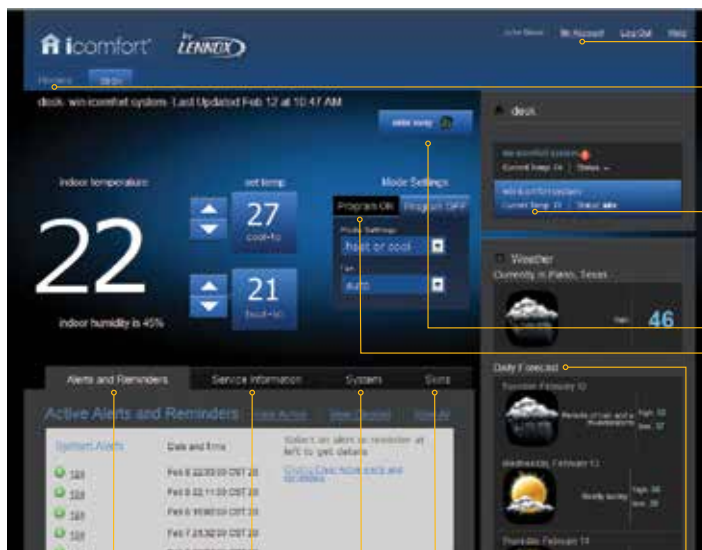

Get to know the thermostat that knows
**innovation, convenience and
comfort** inside and out.

Your online interface to perfect air.

The icomfort Dashboard

This powerful website is the central command for your icomfort Wi-Fi,® giving you access to the most detailed features and information in one convenient location. Log on to www.myicomfort.com and you'll have everything at your fingertips.

My Account – During the installation of your icomfort Wi-Fi, you'll create an online account to help manage and control every icomfort Wi-Fi you own. On the My Account screen, you'll have the ability to add and edit personal information and dealer information for each icomfort Wi-Fi you own.

Home(s) – This screen allows you to select which of your installed icomfort Wi-Fis you'd like to monitor or adjust, while giving you the ability to add additional icomfort Wi-Fi thermostats for different rooms or additional homes.

Current Indoor Temperature and Humidity – Check and adjust either setting with just a click or touch#

Away Mode – Easily sets your icomfort Wi-Fi to an energy-saving One-Touch Away Mode, so you don't waste energy heating and cooling an empty home.

Program – Set your icomfort Wi-Fi to a predefined schedule based on the season, or control the temperature manually.

Forecast – Check the five-day weather forecast.

Skins – Change the screensaver to a family photo, artwork or any color to blend in with your decor.

System – View or edit information about the system to which your icomfort Wi-Fi is connected.

Service Information – Edit information about your dealer, or email your dealer with questions or comments.

Alerts and Reminders – Stay on top of your system status by viewing any alerts or reminders for needed maintenance or service.

#Lennox by-pass Humidifier (Y2786) must be installed.

EIM (Electronic Interface Module) – Your icomfort Wi-Fi must be installed with an EIM for the thermostat to be operational.

We're obsessed with the pursuit of creating perfect air, and doing so with absolute efficiency.

Since 1895, Lennox has been on a continuous quest to reinvent home comfort. Perfect air is our purpose and our obsession. Today, that pursuit takes shape in many innovative ways: the most precise and energy-efficient air conditioners, energy efficient furnaces, heat pumps, Wi-Fi-enabled thermostats, air handlers, air cleaners, small-space comfort systems, and more.

Peace-of-mind protection

The icomfort Wi-Fi comes with a five-year limited warranty.#

Dealers you can count on

You can trust Lennox Dealers to design the right system for your home, install it properly and keep it running perfectly for many years to come. Because Lennox has quality dealers throughout Australia & New Zealand, you can rest assured there's one near you.

icomfort Wi-Fi®

Lennox® innovation never felt so good.
Or so convenient.

The Ultimate Comfort™ System

Meet the most advanced, most efficient, most capable heating and air-conditioning system ever created. It's a triumph of Lennox innovation, comprised of the most advanced technology we've ever assembled into one system.

The icomfort Wi-Fi® thermostat connects you to ultimate possibilities.

Lennox' commitment to innovation has never been more obvious. By pairing the ease and convenience of icomfort Wi-Fi with G61MPVT Furnaces and Add-On Cooling you create a system without parallel.

G61MPVT

The Lennox G61 Furnace has a variable speed motor that reduces electrical usage by 66%, compared to a standard motor. Plus, two stages of heating minimises temperature fluctuations, so you can save on energy bills without sacrificing comfort.

icomfort Wi-Fi Thermostat

A truly innovative temperature command centre that allows advanced scheduling, energy-saving One Touch Away Mode and remote access from anywhere in the world via laptop, smartphone or tablet.
